

## Quality policy statement

Poppe + Potthoff Scionzier SAS is firmly committed to develop and strengthen its leading position in high technology products manufacturing giving focus on customer satisfaction.

As a consequence, Poppe+ Potthoff SAS Scionzier develops a continuous improvement process enabling to perform through the following axes:

- The satisfaction of our customers:
  - Through a direct contact policy enabling an optimum reaction time
  - That takes into account the specificities of each of our direct customers
  - That anticipates the general requirements or identified changes
- Growth, cost control and profitability
- An acute quality care which is relentless
- A robust manufacturing process

We are committed to implement all human and material resources to satisfy the achievement of all our customers' requirements in standards, rules and the applicable referential.

We dedicated to an environmental management approach through the ISO 14001.

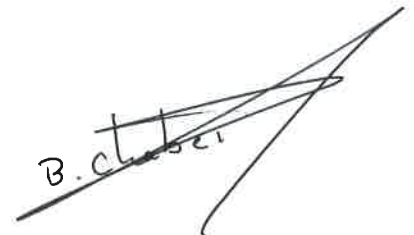

Our staff is involved through a quality system, we are convinced on our environmental management as an essential tool in our progress by adapting constantly the needs of our customers in line with the Poppe + Potthoff group quality policy.

Quality objectives are set to measure the level of achievement of the purpose of this policy.
